## PREFACE.

THIS third part of the second volume or section of the Register of the University of Oxford gives the degrees which correspond to the matriculations which have already appeared in Part II; that is to say, the degrees of B.A. and B.C.L. from 1571-1625, with the other later degrees as they attach themselves to these.

I had hoped to complete the second volume with the present part, but I find that the general index which has now been compiled is too extensive to permit of its issue in the same part with the degrees. I am very sensible of the incompleteness of the volume without its index, and shall hasten it through the press with all speed. Its extent will, I hope, in some measure excuse this delay in its appearance.

The present volume brings out very distinctly several points of deficiency in the matriculation registers of the University. How frequently names are omitted in the Matriculation registers and Subscription books is sufficiently apparent from the first table which is given at the end of the degrees. How imperfect the registers are in dates, even with those names which they give, may be collected from such comparisons as the following:—

William Cheyny, Ball.; matric. 28 June 1604; adm. B.A. 20 May 1606.

William Cheney, S. Jo.; matric. 22 June 1610; adm. B.A. 31 Jan. 161 $\frac{9}{11}$ .

Christopher Coles, S. Jo.; matric. 16 June 1610; adm. B.A. 28 June 1610.

Henry Figg, Magd. H.; matric. 4 Dec. 1607; adm. B.A. 17 Dec. 1607.

John Hind, Ch. Ch.; matric. 18 Jan. 158 $\frac{6}{7}$ ; adm. B.A. 17 Feb. 158 $\frac{6}{7}$ .

Alexander Norris, Bras.; matric. 28 June 1616; adm. B.A. 4 Nov. 1616.

Thomas Stersacher, Gloc. H.; matric. 20 Oct. 1620; adm. B.A. 28 Nov. 1620.

It is impossible to suppose that the requirements of the University about residence for the B.A. degree were openly and habitually neglected without some record of dispensation or residence elsewhere. One con-

clusion therefore remains, that the matriculation entry in such cases has been made at a date later than the actual beginning of residence. I have taken these seven instances quite at random, and might have increased them by tens and twenties. The lists in Part I, pp. 290 foll., supply conclusive evidence on both points. Several names are found there which are absent from the Matriculation register. In other cases names occur earlier than they do in the Matriculation register. There is, for instance, no doubt that . . . Badcock and . . . Day of the Broadg. H. list on 1 Feb. 161 $\frac{8}{9}$  are the two whose matric. in ii. 394 is only a month before their degree in iii. 401.

I had hoped to draw from the materials supplied by the present volume a tabular view of the part played in the economy of the University by the eight Halls which still flourished in the Elizabethan age; but I find that the details are too intricate to be gathered together in a table. Generally speaking, however, we may note a constant tendency with men who have taken B.A. from a College to take M.A. from a Hall, where the fees were smaller and rooms cheaper. We may note also that the choice of the hall is very frequently determined by its proximity to the graduate's college, Christ Church men frequently appearing at Broadgates Hall, New College men at Hart Hall, Corpus Christi men at S. Alban Hall. In the case of Merton and S. Alban Hall, Oriel and S. Mary Hall, Queen's and S. Edmund Hall, Magdalen College and Magdalen Hall, the attractions of proximity were strengthened by the close connection between the College and the Hall. We find also many who have matriculated at or taken B.A. from a Hall, subsequently graduating from a College; a number of these cases may be accounted for by the gaining of some scholarship, exhibition, clerkship, or fellowship.

---

I take this opportunity of adding some notes and corrections about points touched on in the first part.

In Part I, p. 290, line 24 from top: *for Hart H. read S. Alb. H.*

As regards New College, I find that a relic of the old exemption from supplicating for degrees survives in theory. All New College men have their graces asked in Congregation, but the correct word in asking the grace for a Fellow of New College is 'postulat' and not 'supplicat.' (See Part i, pp. 30, 31.)

As regards the High Sheriffs (Part i, pp. 313, 314) I have to refer to the ample lists of 'Lords Lieutenant, High Sheriffs, and Members of Parliament of Oxfordshire from 1086 to 1868,' compiled by the late J. M. Davenport, Esq., recently issued (Oxford, at the Clarendon Press, 1888) in a new edition by T. M. Davenport, Esq.

I might also have called attention to the evidence which the exercises

and formalities of the degree-system afford about the numbers present in the University. We know that in the Elizabethan age many of these had become very formal and unimportant, and that no new ceremonies of any length had been imposed; and yet we find that with a couple of hundred, say, proceeding to B.A., and a hundred to M.A., the requirements of the University system can be fulfilled only by liberal dispensations about the time and place and duration of the exercises. When therefore these exercises were real and thoroughly carried out, we must conclude that the number of persons passing through the curriculum of the University was very small.

---

In the present part I ought to have noted that the list of Fellows of All Souls' College referred to on p. 7 is that originally compiled by Robert Hoveden, Warden from 1571 to 1614. See Bliss' Wood's Ath. II. 145.

---

In the present part, after the sheets were struck off, I have noted several misprints and a few omissions in the bracketed references to the matriculations; these have been of course corrected in the index, and I need not enumerate the simpler ones of them here, as they are an addition to the work and involve no misstatement of any document.

One or two of them, however, involve not merely a wrong reference, but a mistake in attaching the degree to the right person. These I have noted here. Also one or two slips and omissions in the text.

p. 21, line 9 from foot: *read* 'to take D.D. (? M.A.) suppl. to have.' The description of the former grace as being for D.D. is clearly an error for M.A.; since immediately after the present grace is granted Angell takes his M.A.

The degree of Thomas Wood, who was lic. M.A. from S. Mary H. on 9 July 1613 and inc. 1613, furnishes a good example of how complicated a question the fitting together of these degrees becomes with a common combination of names and how easy it is to fall into error—an error which in this case I have not been able to avoid in the text, though I have now detected it.

We learn from Wood's life (Bliss' Wood's Ath. I. p. v.) that we must bring together Thomas Wood (Anthony's father), whose matric. at Broadg. H. is given in ii. 240 ; Thomas Wood, B.A., Corp., p. 246 ; and B.C.L., Broadg. H., p. 380. Wood never mentions his father as taking M.A., and therefore this M.A. entry cannot belong to this place.

It is probably out of the question to attach this M.A. to Thomas Wood of S. Mary H. p. 141, who took his B.A. 26 years before.

There is at this time also a Thomas Wood, B.A., New C., p. 286, and another B.A., S. Edm. H., p. 284, but each of these has his own M.A.

All these possibilities being struck out, it becomes clear that this M.A. must be attached to Thomas Wood who incorporated as B.A. from Cambridge on 1 July 1612 (i. 367), and on 4 July, being then at S. Edm. H., was allowed to count his Cambridge terms since B.A. On 27 Oct. 1612, being then of S. Mary H., his grace (I suppose, for M.A., though it is not stated) was refused (i. 228). On 7 July 1613 he suppl. again for M.A. from S. Mary H., was lic. M.A. on 9 July 1613, and inc. 1613.

## VOL. II, PART III.

### DEGREES 1571-1625.

THE reasons which induced me to give the degrees in a separate volume from the matriculations have been stated in the Preface to Part I of this volume (pp. xv, xvi), but may be recapitulated here. In the first place, there are so many errors and omissions in the Matriculation Registers, that any system of combining the degrees with the matriculations must have involved a large appendix of degrees for which no matriculations could be found. In the second place, the successive admissions to the B.A. degree supply a chronological view of members of the University, which becomes of the greatest value in the many years in which the Matriculation Registers and Subscription Books are defective or confused in their notes of time.

The principles on which the degrees in this volume have been arranged may be thus stated. The entries follow each other according to a fixed scheme, and seek to give (I) the College, (II) the names, (III) the degrees, (IV) the reference to the matriculation, and (V) (in some cases) other references in relation to the persons graduating.

On each of these heads some words of explanation are needed.

(I.) As regards the College of the graduates. Wherever possible the College given is that found in the entry which records admission to the B.A. degree. In a few cases, where that entry is unmistakeably in error, the right College is given from other entries; but the change and the reason for it are noted. Where no further record of the College is made, it is to be understood that in all subsequent degrees the student continues to be at his

first College. Where the student changes his College, which at this period was a very common occurrence, an asterisk has been added, and the new College is entered in brackets at the point where it first comes in.

In the earlier years of this period (1571 to 1580) the College is absent from all degree entries. In these years I have given, wherever possible, a College reference for the graduate, enclosing it in angular brackets < >. The evidence on which this is done is found in the references to the Matriculation Register and to College admission books which follow the degree entries. It is to be clearly understood that such bracketed entries do not profess to give the College at the date of the B.A. degree, but only the College to which it appears that the student belonged at some time in his course. In some instances he would be of that College at the date of his B.A.; in others, not.

Just at the point of time where the College begins to be recorded in the degree entries, several complications arise. A person, e.g. admitted B.A. in 1580 does not have his College indicated; but the College is stated when he determines in 158<sup>o</sup><sub>1</sub>, or takes his M.A. in 1583. In these cases the possible College at the date of the B.A. degree is given in angular brackets as before; and the College recorded at the determination or the M.A. is given when it first occurs. Where a change has taken place the first entry is asterisked, as before.

The mark . . . indicates that I have been unable to find a College reference for the graduate.

(II.) As regards the names of the graduates. The first spelling of the surnames, as a rule, is that of the entry recording admission to the B.A., variants in other degree entries being added in brackets. In a few cases, where the spelling of the admission entry was misleading, the more usual spelling has been taken, and the other recorded as a variant. In many cases the spelling of the surname in one or other of the degree entries is not a variant but an error; and in other cases the Christian name is given erroneously in some of the entries. In these cases the erroneous spelling or name is given in brackets at the date when it is found. It is, however, to be clearly understood that the surname and name given in the first place prevail throughout the entries, unless the contrary is expressly stated.

(III.) As regards the degrees. As a rule, the names follow

each other in the order of admission to the B.A. degree; to which all other degree entries have been attached.

In a fully-written out series of degree entries there will be found *three*<sup>1</sup> entries for the B.A. degree, recording the supplication (suppl.), admission (adm.), and determination (det.); these are followed by *three* for the M.A. degree, recording the supplication (suppl.), the licentiation (lic.), and the inception (inc.); these may be followed by *two* for a licence to practise in a faculty (suppl. lic. to pract. med. and lic., *or* suppl. lic. to preach and lic.); these again may be followed by *two* for a bachelor's degree in a higher faculty (suppl. B.C.L., *or* M.B., *or* B.D., and adm.); and these by *three* entries for a doctorate (suppl. D.C.L., *or* M.D., *or* D.D., lic., and inc.).

It is therefore quite possible that a graduate in Medicine or Theology may have thirteen entries recording the thirteen stages of his graduation. And in the great majority of cases his name will occur in the University registers even more frequently, for it was possible and usual to have a dispensation at all of these stages and at several intermediate points.

These dispensations have been omitted; as also the 'supplicat' entries, except in the first twelve years, when it was desirable to illustrate the ordinary degree procedure of the University. Where, however, the 'suppl.' or 'disp.' entries contain any information beyond the mere formal statement that the candidate had fulfilled or been dispensed from the conditions required for the degree, either the entry is recorded or the information it supplies is noted.

Where a graduate was a grand compounder, the fact was generally noted in the admission entry by adding 'cumulatus,' and these notes have of course been retained here.

The record of determination and inception has been retained throughout. Without determination the degree of B.A. was incomplete, and *ipso facto* lapsed; without inception the degrees of Master and Doctor were incomplete, and *ipso facto* lapsed. If we set aside, therefore, the omissions of the degree registers, we have to seek in all cases an explanation for the absence of the determination or licence. It points us sometimes to the candidate's death or removal from Oxford before completion of his degree; sometimes to some College custom or quarrel; and so

<sup>1</sup> Except in the case of members on the foundation of New College, who were exempt from supplicating in all degrees.

on. In a few cases it is helpful in fixing the right person to whom to attach a later degree: e.g. a Thomas Collins of Exet. took M.A. in 1628; we have to decide whether this was Thomas Collins of Exet. who took B.A. in 1624, or another Thomas Collins who took B.A. in 1625; the former alternative is preferable, because the B.A. of 1624 certainly determined, but we have no record of the determination of the other. In a great many cases the absence of the determination entry enables us to correct the degree register in those places in which a licence to M.A. has been registered as an admission to B.A.

In almost every year there are a number of degree entries which cannot be brought into the above scheme. These have been arranged at the end of the B.A. admissions for each year in the following groups:—

(a) Students who are recorded as supplicating for the B.A. degree, or determining, but for whom no admission to that degree has been found. Some of these supplications were perhaps never followed by admissions; some are probably due to errors in the names which I have been unable to check; in some the record of admission has been omitted, as is proved by later entries.

(b) Students who are recorded as taking M.A., but for whom no B.A. entries exist to which the M.A. can be attached. Several of these persons are known to have incorporated; others perhaps had incorporated, but the record of their incorporation is lost; some few are doubtless due to error in the name, or to incompleteness in the register of the B.A. degree.

(c) Students who graduate in Law without graduating in Arts. This (as has been explained in Part I, pp. 7, 113) was a recognised course in the University. Such students are most frequently from New C. S. John's and All Souls contribute some names; but latterly the All Souls Law students are generally found to have graduated in Arts.

(d) Students who graduate in Medicine without graduating in Arts.

(e) Students who graduate in Theology without graduating in Arts.

These two classes last preceding suggest either incorporation or special dispensation; or else imperfection in the register of Arts degrees.

For the first few years of the period these appendixes to the

B.A. degrees of the year are swollen to an abnormal volume by the necessity of entering the higher degrees of men whose earlier degrees have been recorded in Mr. Boase's volume. Some slight repetition of the entries in that volume has also been found necessary; it seemed better to err on the side of repetition than to spoil the run of the degree entries by petty curtailments.

Having had so much to say in all three parts of my volume about the existence of large gaps in the matriculation records, I note with pleasure that there seems every reason to suppose that the register of graduates is fairly complete. We may not have all the entries about every graduate, but from 1571 to 1625 there can have been very few people who ever proceeded to a degree whose name has not been preserved in some one entry or other.

The entries relating to licences to practise in Surgery and to degrees in Music are not given here, but have been placed by themselves in Part I, pp. 124, 146. They are very few in number; and when brought together throw a light on each other which would be lost if one entry was separated from the other by forty or fifty pages of print.

I intended also to append to the record of incorporation of graduates in Part I any entry relating to a higher degree at Oxford. I find, however, that I failed to trace some of these at the time, and have had to place them among the M.A. and other entries in the present Part.

In this list of degrees there is one point of cardinal importance. Every entry about a graduate occurs in a different part of the degree registers from every other entry, and there is absolutely no clue to attach them together in a series except pure conjecture from the similarity of the names. These conjectures are in most cases easy and certain. But where the name is a common one, and especially where a change of College takes place, the summation of the entries is often both difficult and uncertain. To take a hypothetical case. John Williams, of Hart H., is found taking M.A. in a given year; is this degree to be attached to John Williams who took his B.A. from S. Edm. H. three years before, or to another John Williams who took his B.A. from Jes. C. four years before? And so on in many like cases. I have taken every pains to attain accuracy in this matter, but it must be clearly understood that the connection of one degree

entry with another rests on no statement in the degree registers, but on bare conjecture or inference.

Towards the end of this volume it will be observed that there are an unusual number of errors and omissions in the register of degrees, especially in the Christian names. The explanation is to be sought in the failing health of the Registrar, Thomas French, and the incompetency of his deputy. In the beginning of the next volume, when John French succeeded his father (see Part I, p. 249), these errors become still more numerous; as *À Wood* has noted in his transcript of the licences to M.A. for 16 $\frac{2}{3}$  $\frac{9}{10}$ :—‘*Nota quod Johannes French, in officium scribae noviter electus, multa omisit.*’ John French’s delinquencies were, however, due to more causes than his newness in office. In describing ‘P. 15’ (the register of Congregation from 7 April 1630 to July 1634), *À Wood* says:—‘All which is written by John French, who though a good scholar, yet he was much given to bibbing, and has committed many misnomers, neither hath he timed<sup>1</sup> things well.’ (Wood, MS. E. 4, fol. 169.)

(IV.) As regards the matriculation references. I have added to the degree entries within square brackets [ ] the reference, where I seemed satisfied with its probability, to the matriculation as given in Part II, and occasionally to similar records in Part I. In every such case the attachment of a degree to a matriculation is a mere conjecture. In most cases the conjecture is not only easy but also certain; but with frequently recurring names, such as John Williams, William Jones, Richard Smith, certainty, or even probability, is out of the question. We have to remember that there are great gaps in the matriculation register; that names are entered under wrong Colleges; that changes of College are frequent. Hence, to take a hypothetical example, it is impossible to say whether a William Powell, who took his B.A. from Gloc. H. in a given year, is to be identified with a William Powell who matriculated at Jes. C. four years before, or with another who entered Oriel C. about the same date, or whether it is to be supposed that he refers to neither, but that the record of his admission has been omitted. A great many identifications of degrees with matriculations, which at first sight seemed plausible, have had to be rejected when all the possibilities of the case were taken into account.

<sup>1</sup> I. e. given the dates of the entries. This is particularly true of the licences to preach from 1630 to 1633, and of the admissions to B.D. in 1631.

This point has an interest and importance far beyond the range of the present volume. The older generation of students who collected notices of Oxford writers seem to have been far too hasty in claiming a writer for Oxford on the strength of finding a person of his names recorded in our Oxford registers at or about the year at which he might have come to Oxford; and the same vicious principle of hasty identification continues to infect our biographical dictionaries and county histories. One instance of it may be given. Nicholas Fitzherbert in 1602 published an interesting tract<sup>1</sup> on Oxford University in his day. A Wood has a distinct statement that he entered Exeter College in 1568, and that he occurs as senior undergraduate in the Exeter College list of 1572. The only evidence for this seems to be that one 'Fitz-herbert' (no Christian name given) occurs in the Exeter list, see Part II, p. 32. To see how unsubstantial is the foundation for identifying this name with Nicholas Fitzherbert, we have to remember that Fitzherbert is not an uncommon name at the period, and that this may equally well have been a John, or Thomas, or any one else; and again, that though it were certain that Nicholas Fitzherbert was in Oxford in 1572, he may have been at All So., Bras., Ch. Ch., Corp., Linc., Magd. C., Mert., New C., Queen's, S. Jo., or Trin., of all which Colleges there are in this year either no lists, or practically no lists.

(V.) Some other references have been added. During the period 1571-1580, where the College is not given in the degree registers, I have tried to supply the omission by adding from such College sources as were open to me the record of the graduate's fellowship or scholarship. Since these notes are in part drawn from original authorities, and in part borrowed, I append a statement of their sources.

For All Souls, I have used a MS. list of fellows from the foundation, preserved in the College Library, apparently drawn from the College admission books, and prepared with great accuracy.

For Balliol, I have used the original College Register.

For Brasenose, I have used a MS. list of fellows in a ledger-book. It seems to date from the end of the seventeenth century, and to be incomplete.

<sup>1</sup> Republished in the volume of reprints concerning Elizabethan Oxford, issued by the Oxford Historical Society in 1886.

For Christ Church, Mr. Vere Bayne allowed me to use his lists.  
For Corpus Christi, I have used the MS. list of scholars and fellows drawn up from the original admission books by Robert Hegg, and revised by William Fulman.

For Exeter, I have used Mr. Boase's published 'Registrum Collegii Exoniensis,' cited as 'Boase.'

For Jesus College, I find that the College Register affords no help till about 1612.

For Lincoln, I have gone through the original College Registers.

For Magdalen, I have used Dr. Bloxam's published 'Register of S. Mary Magdalene College,' cited as 'Blox.'

For Merton, I have used the list in Dr. Brodrick's 'Memorials of Merton College,' cited as 'Brod.'

For New College, I have used the admirable MS. list of fellows and scholars drawn up from the College books by the present Warden.

For Oriel, I have, with Mr. C. L. Shadwell's help, gone through the original College Register.

For Queen's, I have used an old MS. list of fellows, apparently of date towards the beginning of the seventeenth century, and probably extracted from the College books.

For S. John's, I have used a MS. list of fellows, drawn up by William Holmes, President 1728-1748.

For Trinity, I have used the MS. list of fellows and scholars, drawn up by Ralph Kettell, President 1599-1643.

For University College, there seems to be no register or list of fellows till quite recent times.

For the Halls, Broadgates, Gloucester, Hart, Magdalen, New Inn, S. Alban's, S. Edmund, S. Mary, there seem to be no independent lists in existence.

In the case of degrees taken by persons whose earlier degrees are found in Vol. I of the Register, edited by Mr. Boase, I have given the reference (in the usual form, *Reg.* I) in all instances where it is not covered by the reference to Part II of the present volume.

Other references, e.g. to Wood's 'Athenae' and 'Fasti', might readily have been added here; but I have intentionally omitted them, since the scope of the present volume extends only to unpublished documents.

 <Magd. C.> Merycke, William.  
 <New C.> Merricke, William.

There is probably a confusion between these two in the notice in Reg. I. 254. William Merricke, Fell. of New C., would not suppl. for his degrees since members on the foundation of New C. were exempted from supplicating. The degree in arts there given ought therefore to be assigned to William Merricke of Magd. C. [ii. 17]

⟨*Brasenose.*⟩ **Hall (Haule, Hooll), Thomas**; B.A. suppl. M.B. and for lic. to pract. med. 17 Mar. 157 $\frac{1}{2}$ , adm. M.B. 14 July 1572; suppl. M.D. 31 Oct. 1576, lic. 11 July 1581, inc. 1582. (*Reg. I.* 267.) [Perhaps he is the — Hall of Bras. ii. 26, No. 64.]

⟨*Trinity.*⟩ **Sherewood, John**; suppl. M.B. and for lic. to pract. med. 17 Mar. 157 $\frac{1}{2}$ . [ii. 24] ⟨Scholar of Trin. in 1561, Fellow in 1565.⟩

⟨*Lincoln.*⟩ **Chippingdale, John.**

⟨*AllSouls.*⟩ **Chippingdale, John.**

In the notice in *Reg. I.* 258 probably two persons are to be distinguished.

Chippingdale, John, suppl. B.A. Apr., adm. 6 July 1565, det. 156 $\frac{5}{8}$ . At a date not given he took M.A. and M.B. As M.A. and M.B. of one year's standing, he suppl. M.D. 16 July 1572. There was a Chippingdale, Fellow of Linc. in 1566; possibly this man, since in most cases a Fellow of Linc. at his election was of B.A. standing.

Chippingdale, John, after five years in Law, suppl. B.C.L. Apr., adm. 26 Apr. 1570; suppl. D.C.L. as B.C.L. of 3 $\frac{1}{2}$  years' standing 9 June, lic. 15 Oct. 1573, inc. 1573. This John Chippingdale was el. into a Law Fellowship at All So. in 1565, and would therefore be excused the course in Arts.

... **Willobey, Thomas**; as M.A. of ten years' standing, suppl. B.D. 17 Mar. 157 $\frac{1}{2}$ . (Perhaps he took his M.A. in 1564 when the reg. is mutilated. See *Reg. I.* 256.)

⟨*Ch. Ch.*⟩ **Dorset, Robert**; suppl. B.D. 17 Mar. 157 $\frac{1}{2}$ ; suppl. B.D.

- and D.D. 3 Sept. 1575, (the record of his adm. and lic. is missing),  
inc. D.D. 1579. [ii. 12] <Student at Ch. Ch. in 1561.>
- <Oriol.> Hill, Robert; suppl. B.D. 16 April 1572; adm. B.D. (from  
Oriol) 21 Jan. 1580. [ii. 39] <Fellow of Oriol in 1562.>
- <Ch. Ch.> Merston (Marston), Nicholas; suppl. B.D. May 1572, and

- <Exeter.> Collins, John; as M.A. and after twelve years' study in Theo-  
logy suppl. for lic. to preach on 8 July and again on 9 Nov. 1572.
- There seems to be an error in the notice in *Reg. I.* 220. This suppl.  
would naturally belong to 'John Colling,' M.A., in 1553. The M.D. de-  
gree assigned to this man in *Reg. I.* 220 must therefore belong to 'John  
Collyns,' *Reg. I.* 196. Both were Fellows of Exet., see Boase, p. 36 and  
p. 38.

⟨Up to this point in the case of each degree the full number of entries (with the exception of the dispensations) has been recorded. For some years this fulness of statement has probably appeared superfluous. It serves, however, to show the old degree-system of the University in its actual working order. Before this period, it was hardly possible to give such a view of the system, because of the imperfection of the records; after this period it is hardly necessary to do so, because several of the steps were yearly becoming more and more mere forms. It serves also to provide a kind of index to the degree entries in the register up to the point where they become orderly. Information about the persons who took degrees, as regards, e.g., the number of terms they had kept, their father's condition, and the like, is sometimes found in the 'supplicat,' and in the absence of matriculation entries this information is of value. After this period the matriculation entries become more complete, and the 'supplicat' entries more formal; and it is therefore less necessary to refer to them. The registers, moreover, are better kept, and supplicats and dispensations can readily be found, if required, by looking through the entries prior to the date of admission to a degree. From this point therefore I omit the 'supplicat;' I have however read through all these 'supplicat' entries and the dispensations connected with them, and wherever they add anything to the other entries I have here noted it. E.g. The notes 'arm. fil. n. m.,' 'then in orders,' and the like; and in

some cases the notices of the College, which are given hereafter, come from these dispensations and supplicats.)

## TABLES.

The completion of Part III enables us to put in a tabular form some relations of the degrees with the matriculations. This I have done in two tables supplementary to those given at the end of Part II.

### TABLE F.

In this table I have placed side by side in each year the total number of persons who are recorded to have taken a first step to graduation, side by side with a statement of how many of these persons cannot be found in the matriculation records.

By a first step to graduation I mean, being admitted to B.A., or supplicating for B.A. or determining if the admission is not recorded, and being admitted to B.C.L. (in those cases where no previous course in arts was taken) or supplicating for B.C.L. if the admission is not recorded. These entries may reasonably be taken as giving us the grand total of persons who passed the first stage in the University degree-system.

In estimating the number of those who are found in the matriculation records, I have of course excluded the lists (which come at the beginning of the first Matriculation Register and are given in Part II, pp. 10 to 46), because these are an unusual addition to the Matriculation Register. Our business is with the ordinary records of matriculations as ordered by University Statute to begin in 156 $\frac{4}{5}$  (see Part I, p. 163). I have, however, allowed the Matriculation Registers to have the benefit of the additional names supplied after 1581 by the Subscription Books.

The number given is only an approximate one, because in a few cases, with fuller knowledge than we at present possess, some additional degrees might be attached to the matriculations. But I believe that in most cases the number given as absent from the Matriculation records is rather under than above the mark, because in making the table I have admitted several identifications of degrees with matriculations which are at best very uncertain.

Taken in the rough this table brings out in a remarkable way the deficiencies of the records of Matriculations. There is a marked improvement towards the end of this period; but even in the best years the proportion of graduates whose matriculation is not recorded seldom sinks below a tenth of the whole number, and in many years is nearer a sixth or a fourth.

There is on record a sufficient explanation of this. Wood in his life (Bliss' Wood's Ath. I, p. xiii) tells us that he himself was matriculated on 26 May 1647, and had a certificate to that effect from Matthew Crosse, the esquire bedell of Law. This certificate was with him, no doubt, (as it is still) the ordinary testimony<sup>1</sup> of matriculation, and as such was probably produced when Wood took his degree. But afterwards, when he came to search the matriculation register, he found that the bedell had not recorded<sup>2</sup> his matriculation in any of the books.

If this was the case with persons who proceeded regularly through the curriculum of the University, and completed it by graduating, how much more probable it becomes that no record should be preserved of many who came to Oxford for a short time only, or with no intention of graduating.

Wood tells us in one place in the *Athenae* that in his day poor scholars often came to Oxford for a time and avoided matriculation on the score of expense. And we have often fairly strong evidence that sons of noblemen and gentlemen studied at the University for some time, though no record of their matriculation exists.

The deficiency of the Matriculation Registers of the University can in many cases be supplied from College documents. And I anticipate that the publication of the University records, when completed, will only bring out more markedly than before the necessity of supplementing them from College Admission-books, Caution-books, and Account-books. Until these are searched and the names they yield published we are still a great way off anything like a full record of Oxford names. These College records may also give us in many cases the true date of the commencement of a man's Oxford course, which (as I have shown on pp. v, vi) is often put two or three years too late in the University Matriculation register.

#### TABLE G.

This table places side by side in each year the total number of matriculations and a statement of how many of these are altogether absent from the degree records of the University. It will be observed that towards the end of the period the number of persons who take no degree diminishes from about half to about a third of the whole number who matriculated.

<sup>1</sup> Wood later on speaks of similar certificates being granted in testimony of the performance of degree exercises; Bliss' Wood's Ath. I. p. xxiii.

<sup>2</sup> A fee was exacted at Matriculation. It would be interesting to know whether the fees of persons whose names were thus left unrecorded were accounted for to the University.
